### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following:

1. (currently amended): A negative resist composition comprising:

(A) an alkali-soluble resin;

(B-1) a cross-linking agent capable of cross-linking with the alkali-soluble resin (A) by the action of an acid, in which the cross-linking agent is not a resin and is a phenol compound having a molecular weight of 2,000 or below and containing: at least one phenolic hydroxyl group; ~~one or more~~ 3 to 5 benzene rings in the molecule; and at least two cross-linking groups bonded to any of the benzene rings, the cross-linking group being a group selected from the group consisting of a hydroxymethyl group, an alkoxymethyl group and an acyloxymethyl group;

(B-2) a cross-linking agent capable of cross-linking with the alkali-soluble resin (A) by the action of an acid, in which the cross-linking agent contains at least two groups selected from the group consisting of the groups represented by the following formulae (1) and (2);

(C) a compound capable of generating an acid upon irradiation with an actinic ray or radiation; and

(D) a nitrogen-containing basic compound:

Art Unit: 1795

wherein  $R_3$  represents a hydrogen atom, an alkyl group, or an alkylcarbonyl group; and  $R_4$  and  $R_5$  each represents a hydrogen atom, an alkyl group or an alkylcarbonyl group.

Applicants have submitted a declaration under Rule 132 comparing the closest prior art reference with the claimed invention and have amended the (B-1) crosslinking agent to recite that it contains 3 to 5 benzene rings. The declaration evidence demonstrates improved sensitivity, resolution, pattern profile and line edge roughness of the claimed invention over the prior art crosslinking agents. The amendment to claim 1 and the Rule 132 evidence serve to overcome the rejection over KAI et al, in view of KOBAYASHI et al, HAKKEY et al and SHIRAKAWA et al.

Applicants have further antedated the SHIRAKAWA et al reference with a certified English translation.

In view of the response by applicant as stated above, claims 1, 2, 4-7, and 10-20 are seen as allowable and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
